

Help us to improve your stroke services

The local NHS wants to ensure fewer people have a stroke, and those that do, receive the best care and best chance of a full recovery.

Improvements are being planned to all stroke services, from prevention, admission, assessment and treatment through to recovery and rehabilitation.

Local clinicians also plan to change where emergency stroke services are provided, to offer patients the very best treatment and recovery.

Please attend one of our feedback meetings

We are holding two events for patients, carers and the public to find out more, meet informally with clinicians, and give us feedback to help us implement the improvements in the best way for patients.

Uckfield

Weds 30 Nov, 11.45am-2pm
Uckfield Civic Centre

Lewes

Fri 9 Dec, 1.45-4pm
Lewes Town Hall
